Elementary (A2)

SKILLS

- C++
- Python
- Arduino
- Unreal Engine
- Unity Game Engine
- Vue.js

OTHER INFORMATION

Personal Characteristics

- Social
- Compatible with teamwork
- Analytical and creative thinker
- Easily able to apply what one has learned

Interests

- Playing Guitar
- Reading Books

EDUCATION

Çankaya University, Computer Engineering (50% Scholarship)

CGPA: 3,1

September 2021 – Present

Ayhan Sümer Anadolu Lisesi

September 2017 – June 2021

PROFESSIONAL EXPERIENCE

Çankaya University (Department of Information Technology)

Part-time Student

March 2024 – Present

NanoMagnetics Instruments

Intern

July 2024 – October 2024 | METU TEKNOKENT

PROJECTS

VehiCrypto - Blockchain-Based Vehicle Maintenance Tracking

October 2024 – January 2025

VehiCrypto is an innovative blockchain-based vehicle maintenance tracking application designed to enhance transparency, security, and efficiency in vehicle service records.

Realistic Horror Game

October 2023 – January 2024

This realistic horror game was developed as a project for the CENG241 (Object Oriented Programming) course at Çankaya University and received full marks (100/100).

COMMUNITY WORKS

Çankaya Game Development Community, Unreal Developer

November 2023 – June 2024

Google Developer Student Clubs Çankaya University, Member

September 2021 – June 2024

IEEE Cankaya University Student Branch, Algorithm Team Member

September 2021 – June 2023

CERTIFICATES

Participation Certificate: 19th International METU Robotics Days

METU Robotics Society

Participation Certificate: AI[Tomorrow Summit] 2023

Artificial Intelligence Policy Association (AIPA)

Python (Basic) Certificate

HackerRank
